by Kindermann

Equipped with projector and document camera/visualiser, they replace the overhead projector, opening up location-independent use of modern presentation technology for you.

With the integrated audio system (as of equipment package 1), you can hold your presentations anywhere - no matter if in the classroom, conference or training room.

Mobile use and robust design

Large, economic bracket grips for comfortable and safe transport, surrounding impact protection from the outer metal frame and safety from a high-quality closing mechanism.

Large, stable rollers (diameter 75 mm) for daily use over door and lift thresholds.

High flexibility

Kindermann offers different equipment versions: Starting with the basic model, to different equipment packages, to the integrated audiophile sound system.

We will gladly configure the media carts according to your wishes as well. Contact us!

Ready for use immediately!

With the media cart² you have the complete technology on board and are ready to use it without delay.

Media rack - 19"

Mobile Media trolley for 19" rails

Mobile and flexible uses due to four soft casters for hard floors, including two that can be fastened, as well as very stable lateral bracket handles. Front with smooth, lockable roller shutter with stop function to protect from unauthorised access.

Revocable rear wall of punched sheet for easy installation and revision of technical components.

- 20 height units (HU)
- Body with melamine resin laminate and ABS-resin edges, rollable
- Metal parts anodized RAL 9006, roller shutter silver
- 2 x cable outlet, laterally on the left and right, 80 mm, silver
- Incl. 50 cage nuts and screws M6 for attachment of 19" devices
- Dimensions: 62.5 x 59 x 110 cm

Media rack 19", 20HU, decor maple
